

FASTER. STRONGER. BETTER.

When Great Lakes Shipyard invested in the expansion of their world-class facility and best-in-class equipment, they partnered with Towlift, a third-generation family-owned business, and authorized distributor of the best lift truck brands to secure the Kalmar DCE 150-12 33,000 lbs. Forklift.

Now, “our craftsmen at Great Lakes Shipyard utilize the strongest equipment to ensure our customers’ custom fabrication projects are done efficiently and effectively.”

- Joseph P. Starck, Jr., President, Great Lakes Shipyard.
